

OSU Educational Talent Search

Transitions 2007

Oklahoma State University Educational Talent Search is proud to offer our 8th graders another opportunity to achieve and grow. As you transition into high school there will be many new challenges. You will overcome some of these challenges with great success, while others will cause you to stumble. Regardless of the results, you must face them with confidence and determination not only in school, but also in life. This summer come and develop these talents and many more as you participate in a fun and exciting challenge course at Camp Redlands in Stillwater. I'll see you there!!!

Sincerely,

Justin Morris OSU ETS Coordinator
