

Agricultural and Environmental Sustainability in China

International Study Tour
3 Credits!

May 10-23, 2010

Trip Highlights: This unique program will include exciting field trips as well as direct interactions with policy makers and scientists of the world's most populous country. Participants will visit the political and cultural center of China, Beijing; the beautiful rural area of Jiangxi Province; and the 'Oriental Venice' Suzhou near Shanghai. You will learn first-hand about issues related to sustaining the environment and protecting water resources while using modern and ancient agricultural production methods to meet the needs of a growing population.

Course Credit: AG 3080 (3 credits), qualifies for General Education International Dimension (I) Designation

Estimated Cost: \$1,650 per person plus airfare

Program: Classroom discussions on China's culture, agriculture, and environment prior to the 2-week tour

Program Leaders: Dr. Jeff Hattey, Professor and Director of Environ. Sciences
405-744-9586, jeff.hattey@okstate.edu
Dr. Hailin Zhang, Professor of Soil Science
